# About Us

## **Vision**

With over 45 years of experience, we continue to build our heritage of developing new products while providing consumers with quality craftsmanship and exceptional value all over the world.

## **Sapna is Therapeutic**

We believe in making your sleeping experience a luxurious one that also caters to health issues.

Simplified and curated products with design excellence. We are driven by constant innovation and the need to upgrade the way India sleeps. Constantly evolving with time in becoming your ideal sleep partner.

## **Why Us ?**

With more than forty five years of experience in the industry, we have practically witnessed the changes in the lifestyle of people unfold before us. Imbibing and learning from the experience, we understand the need of moving with time to offer you products, like a sleeping mattress and other sleeping products that cater to more than just 'comfort-sleeping.'

# GRACE

*Be Luxurious and Sleep Luxurious*

**Sapna Grace Mattress** has a Combination of Cool Gel Infused Memory Foam, Profile Convoluted Foam & Pocketed Springs with a Pillow-Top.

- Cooling gel memory foam is a specially formulated memory foam that contains gel particles designed to help absorb heat and draw it away from the sleeper.
- Compared to a flat foam mattress topper, the responsive structure of convoluted foam toppers provide good weight distribution.
- The luxurious foam layer surrounding the supportive pocket spring core makes your mattress soft to touch and blissful to sleep on.
- No motion transfer when sleeping with a partner.

# NATURA HYBRID

*The Best and Cozy Mattress in the World*

**Sapna Natura Hybrid Mattress** has a Combination of 100% Natural Latex & HR Support Foam.

- Natural material with perforations allows easy flow of air. This keeps the mattress naturally cool and breathable.
- Because of its natural properties the natural latex mattress is dust resistance, anti-fungal and mite free.
- Made with latex rubber technology for superior bounce, best for every season, allergy free & hygiene.
- The cells present in high resilient foams are tightly packed but are differently sized, this means that when the weight applied to is light, the smaller cells will react mimicking the reaction of soft foam.

# ORTHO PRO

*Comfort that Brings Happiness to Life*

**Sapna Ortho Pro Mattress** has a Combination of Memory Foam + 7 Zone HR Support Foam.

- Provides equitable pressure points on each body part where the pressure is needed.
- Gives an elastic ability which allows it to conform to your body to shape to relieve pressure points across the body.
- 7 different pressure relieving areas, with different pressure levels for 7 different body areas.
- The zoning also facilitates pressure distribution, which promotes a good blood circulation which results in higher relaxed and comfortable sleep.

SINCE 1978

# PRIDE

*Pamper your Self in Sleep*

**Sapna Pride Mattress** is a Full HR Support Foam Mattress.

- The cells present in high resilient foams are tightly packed but are differently sized, this means that when the weight applied to is light, the smaller cells will react mimicking the reaction of soft foam. When greater weight is applied to a high resilience foam, the larger cells present in it will come into play, ensuring that the weight is evenly distribution and appropriate support is provided.
- High resilient (HR) mattress technology offers ultimate soft comfort with superior bounce.
- The durability and ability of a high resilient mattress to maintain performance for up to 10 years or more is the main reason why customers think that products with this material are worth investing in.

- Equal Weight Distribution
- No Filler Use
- Best Back Support
- Breathable Mattress

# ENIGMA

*Welcome to the World of Sleep*

**Sapna Enigma Mattress** has a Combination of Pocketed Spring with Turkish Felt.

- Sapna enigma mattress made with pocket springs.
- In a pocketed spring mattress the springs are wrapped inside an individual fabric case.
- This allows each spring to operate individually to closely follow the contour of the body, allowing the spine to remain in its correct position.
- Due to their individual spring construction, pocket springs inherently absorb this 'movement' directly underneath the sleeper instead of spreading it across the bed.
